What is FSC®?

The Forest Stewardship Council® (FSC®) is an international, non-governmental organisation dedicated to promoting responsible management of the world's forests. Since its foundation in 1994, FSC has grown to become the world's most respected and widespread forest certification system.

FSC 100%

All materials used come from responsibly managed, FSC-certified forests. Products with the FSC 100% label contribute most directly to our mission to ensure thriving forests for all, forever.

FSC Recycled

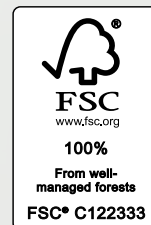

The product is made from 100 per cent recycled materials. Using recycled material makes the most of precious forest resources and reduces the pressure to harvest more trees.

FSC MIX

The product is made with a mixture of materials from FSC-certified forests, recycled materials, and/or FSC-controlled wood. While controlled wood doesn't come from FSC-certified forests, it mitigates the risk of the material originating from unacceptable sources.

Visit www.anz.fsc.org/what-is-fsc/fsc-labels to learn more.

The FSC 100% label means that wood has been harvested to benefit communities, wildlife, and the environment.

Your **choice** for **sustainable** packaging **solutions**

We are Huhtamaki, your choice for sustainable packaging solutions.

With a steadfast commitment to environmental stewardship, we are packaging experts, providing innovative packaging options without compromising on quality or functionality. Our range of sustainable packaging solutions is designed to meet the diverse needs of businesses from wholesalers and distributors to Quick Service Restaurants (QSR).

Partner with us to discover how we can tailor sustainable packaging solutions to fit your unique requirements, while helping you to amplify your brand.

FSC® Range By Huhtamaki

Discover the difference with our FSC certified paper products, the sustainable choice for those who care about the environment. Our commitment to sustainability is unwavering, as evidenced by our use of FSC certified paper. This certification ensures that our paper comes from responsibly managed forests, promoting biodiversity, protecting water quality, and supporting the rights of workers and local communities.

By choosing our FSC certified paper products, you're not only choosing quality and reliability but also contributing to environmental stewardship of our forests.

Bags

Brown Kraft Bags

Our Future Friendly Kraft Paper Bags are the perfect alternative to single-use plastic bags.

Available as Flat Handle, Twist Handle and Self Opening Sack (SOS), our Future Friendly Kraft Paper Bags are also **barcoded** to allow the end user to charge for their paper bag by scanning the barcode stamped at the bottom of the base.

Environmentally friendly, socially responsible and economically viable, these Future Friendly Kraft Paper Bags are made from **FSC®** certified sources.

What does Home & Industrial Compostable mean?

Home Compostable:

These products can be placed in a home compost bin where they will decompose naturally within a period of time. Every component and material used in the packaging will break down and decompose into the soil.

Industrially (or Commercially) Compostable:

These products can be composted in a industrial composting facility. An industrial compost facility is a place where the perfect balance of heat, moisture, and oxygen is created to break down organic and plant-based materials.
